OSEO grants qualification "Innovative Company" to Euro Media Group

Euro Media Group, Europe's leading provider of TV & Film facilities and services, has received early this year by OSEO, the qualification "Innovative Company" in the context of the FCPIs.

This precious document gives access to Euro Media Group for three years:

- ✓ For investments of Mutual Funds in innovation (FCPIs), 60% of the amount invested should be in innovative companies.
- ✓ To enjoy high-tech procurement as part of Article 26 of the Law on the Modernization of the Economy (LME) which enables public purchasers to reserve for innovative SMEs 15% of their high technology markets, R & D and technology studies.

For this qualification, OSEO recognizes the innovative products, processes or technologies implemented by the company and devotes the efforts of teams of Euro Media in R & D since its inception, particularly in the areas of hyper frequencies links (RF).

About Euro Media Group

Euro Media Group, the leader in the European audiovisual services market, is present in 7 countries: France, Belgium, the Netherlands, Germany, the UK, Switzerland and Italy. The Group has developed its audiovisual services activities by seeking to master all stages of the production, processing and broadcasting cycle.

It is now one of the few independent service providers in Europe to offer hi-tech services in the fields of both recording (image and sound) and editing.

Euro Media Group has extensive studio facilities (90 sets), as well as one of the largest fleets of mobile units in Europe (67 mobile units).
